SYRACUSE, NY, December 1, 2020 — Edison Innovative Power LLC (EIP) today announced that it has been recognized as a 2020 Economic Champion by CenterState Corporation for Economic Development (CEO).

While 2020 has been an unprecedented, challenging year for businesses in Central New York, CenterState CEO felt it was important to recognize the silver linings that have emerged amidst the global pandemic of COVID-19 during its virtual Economic Champions celebration held on November 19th, presented by Fust Charles Chambers LLP.

EIP was one of just 295 Economic Champions to be recognized this year for their collective hiring of more than 2,400 employees, 5.6 million square-feet of expansions, and \$752 million in capital investments. At a time of tremendous economic pressure, 88 businesses were recognized for opening new storefronts, offices and facilities, and 40 were highlighted for celebrating a milestone anniversary.

“We’re honored to be recognized for this prestigious award and we are immensely grateful to CenterState for recognizing EIP as an Economic Champion of Central New York. This is a direct result of the exceptional effort and dedication put forth by our teams during this pandemic,” said James

Morrison, CEO & Founder of Edison Innovative Power. “Through our capital investment efforts and the continued success of the EIP Internship Program we have worked to help strengthen the economy and community here in Central New York, and we look forward to continuing our partnership with CenterState CEO.”
